

CAS1000/3 AMPLIFIER

The CAS1000/3 Amplifier is a three channel amplification system delivering 600 watts to the subwoofer(s) (via dual outputs) and two channels at 200 watts each to the satellite speakers. This system is designed to be used in direct burial or wall mount applications as a 1000W amp for stereo systems that require multiple subwoofers.

NOTES:

CAS should always be installed in a shady area if possible.
