

# NICHE ARMATURE

*The Niche Armature* is an incredibly useful and flexible micro size series of fixtures that serve many desirable applications. Our LED module with CMC cable is the core of this line, with six different trim styles and multiple finishes make this the most versatile fixture line in the market.

Design it into places where discrete lighting is required and where conventional fixtures would be out of place, too bright and intrusive.

The Coastal Source Niche Light family: Small, Beautiful and Effective!
